Tapeworm treatment is required when travelling from Great Britain to EU listed tapeworm free countries including Northern Ireland, Malta, Ireland, and Finland. These dogs must be treated for tapeworm not more than 120 hours and not less than 24 hours before time of entry into one of these countries. Please select from one of the following options (not applicable to cats or ferrets).

I am travelling with my dog to:

- Northern Ireland
- Malta
- Ireland
- Finland
- None of the above

NB before returning to Great Britain dogs must be treated for tapeworm not less than 24 hours, not more than 120 hours before time of entry except for return from Northern Ireland, Finland, Ireland, or Malta. You must take your AHC with you for this treatment to a vet in the EU country you are in.

If you are leaving Great Britain on a short trip returning within 120 hours you need to have this treatment done before leaving.

I declare that the information entered above is accurate and correct. By submitting this form, I agree The Pet Health Partnership (or its agents) will use this information to complete an Animal Health Certificate (AHC) and any errors or omissions in the information I have provided may invalidate this AHC. Any invalidation of an AHC caused by errors or omissions in this form is entirely at my own risk. I understand that it is the responsibility of the owner to ensure compliance with current rules regarding travel, these rules are subject to change.
