**Based on: Annual vaccinations, Year round flea and worm treatment*, 1 x vet floating consultation

Pet owners should speak to their vet to understand which parasiticides, dosages and frequency are most appropriate for their pet.

Minimum 12-month contract with automatic annual renewal. Early cancellation will result in fees payable to the practice. Plans complement insurance but do not replace it. *Full details of the parasiticide treatments relevant to your pet, based on type and size, are set out in our price list (subject to the vet’s recommendation). The product and dosages will be determined by the vet in consultation with you.
